

# Waterproof LED Downlight

## **Description:**

DLW Recessed IP65 Waterproof LED Downlight is required for zone regions near water sources. completed lamps IP65 waterproof protection with waterproof driver and waterproof connectors, It makes the room look better and they will have a higher resistance to steams. This downlights finish paint by Anti-Corrisive materials and fully water-resistant which means they are the perfect option for outdoor LED downlights .

It is Ideal for for your planned retrofit or new constructing, Creating tremendous energy saving at a extremely affordable price

## **Application:**

- Villa ,Lobbies, Corridors
- Bathroom Lighting Restaurant
- Seashore Lighting

### **Information:**

#### Features:

- IP65 design suitable for indoor and outdoor use
- Die-casting ADC12 Aluminum, powder painting, acid and alkali resistance, oxidation resistance.
- Extremely long lifetime
- Energy savings
- Maintenance savings
- instant light-up
- Excellent light quality
- No UV or IR radiation
- Environmentally-friendly: no mercury
- Medium useful life > 50,000 hours (L80B50) at ambient temperature of 25 °C

#### Specification:

• Power supply: Lifud (IP54) or Aluminum Shell Driver (IP65)

Lighting Source: OSRAM BRIDGELUX

Housing material: aluminum.Housing color: White Black

■ Working environment temperature: -20oc ~ +45oc.

Lamp Certificates: CE ROSH
